Each year we complete a staff survey and one of the questions we always ask is 'What is the best thing about working in social care?'. Here is a selection of actual responses from our December 2017 staff survey:

*'I just get a good sense of satisfaction from my job and enjoy doing something for others.'*

*'Knowing that you put a smile on peoples faces and reassure them that they are special and important.'*

*'Flexibility.'*

*'The feeling of accomplishment and achievement in making a difference to peoples lives.'*

*'For me the hours and regular clients.'*

*'Meeting different people and knowing my work does make a difference.'*
